

University of South Florida  
Department of Communication Sciences and Disorders  
and School of Aging Studies

## Post-doctoral Scholar in Cognition & Sensory-Perceptual Processing in Aging

This post-doctoral scholar will be engaged in a research and education plan with faculty mentors with expertise in cognitive aging and auditory aging, and their interaction. The scholar will work on innovative research projects focused on changes in brain and behavior as a function of novel interventions for auditory and cognitive decline in aging. Faculty members in the Department of Communication Sciences and Disorders and the School of Aging Studies are funded through NIH and other external funding sources. Both departments have achieved recognition by the Chronicle of Higher Education as being among the Top 10 in their respective disciplines for faculty productivity.

**Minimum Qualifications:** PhD in Aging, Communication Sciences & Disorders, Hearing Science, Psychology, or related field

**Preferred Qualifications:** Expertise in Cognitive or Sensory-Perceptual Intervention or Electrophysiological Assessment

**Salary Range:** \$42,000-\$45,000 (annual)
